

ARCO

The main characteristic of the Arco bench is its natural and simplistic design that does not go unnoticed. Ideal for both outdoor and indoor use, the Arco product family adjusts to any requirement, becoming an excellent fit for both corporate and urban furniture needs.

The stainless steel AISI 304 version is totally weatherproof and resistant to any type of abrasion due to exposure to cleaning products in environments requiring greater sterility, such as hospitals and locker rooms.

NOMEN Design specializes in the design, development and production of urban and corporate furniture and equipment. Our site furnishings are created with a focus on design quality, and harmony with the environment.

Bench for indoor or outdoor use available as 1, 2, 3 and 4 seats.
